smoke,

regression,

UI negative testing using Chrome on Windows.

6. Test Environment

Windows 11,

Chrome (latest),

Stable Internet.

7. Test Data

Valid: kousik /kousik@123

Invalid: wrong_user / wrong_password

8. Entry Criteria

Application deployed.
environment available.
test cases reviewed.

9. Exit Criteria

All planned tests executed.
critical defects resolved or documented.
summary report completed.

10. Deliverables

Test Plan.
Test Scenarios.
Test Cases.
Bug Report.
RTM.
Test Summary Report.

11. Risks

Environment downtime.
internet issues.
delayed defect fixes.

12. Approval

Prepared by: Koushik
Version: 1.0
